Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claim 1 is allowed over the prior art because of the references cited in the record, considered in combination or alone, fail to suggest or fairly teach the given control of the focusing based on the magnetic force of the focusing means. Claims 2 and 4-8 are allowed with respective parent claims. The closest prior art, Wakabayashi et al., teaches many elements of the focusing control but does not teach movable electrical magnetic coil means that are disposed generally in an inclined plane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
